Peppers Cable Glands Ltd

What We Do..

Peppers are a dynamic company based in the south of England, who specialise in the manufacture and supply of equipment for use in potentially hazardous areas. Typical users of our products include leading Oil & Gas Operators, petrochemical and pharmaceutical companies, engineering contractors and hazardous area equipment manufacturers, worldwide

Over the 65 years that Pepper's have been established we have gained a reputation for quality, service and reliability. This has been helped and supported by our comprehensive network of global distribution

Peppers Cable Glands Ltd

People choose Peppers Cable Glands because we deliver:

- **Unbeatable Service**

This is one of our universally recognised assets. If you want service “go to Peppers”

- **Quality Products**

Quality is not something we pay lip service to, but a cornerstone of our company philosophies. To ensure consistent product quality Peppers work within a Quality Assurance System that is approved to ISO 9001:2008 & an Environmental System approved to ISO 14001:2004

- **Accurate Advice**

Peppers have been manufacturing cable glands for over 65 years. Our knowledge of the international Ex standards extend beyond meeting the requirements to attain approvals and is focused on their application throughout the industry, enabling us to give the unsurpassed technical support to our customers
